Profile

I'm a software developer with over 10 years of experience building web applications using technologies like Python, JavaScript, React, and Node.js. My expertise includes designing and implementing RESTful APIs and optimizing database queries for performance.

Professional Experience

Developer, *UserTesting* ↗   2018 – 12/2022
Creating and executing usability tests to evaluate the ease of use, efficiency, and   UK | Germany | Remote
overall user experience of software products: designing test plans, coding test
scripts, recruiting test participants, and analyzing test results.

Developer, *Appen Ltd*   2020 – 2022
Chatbot software development.   Remote

Project Manager, *UniD Formazione* ↗   2015 – 2018
Development, deployment and system administration for the company web   Borgo Maggiore, RSM
applications.

Teacher, *MIUR* ↗   2011 – 2014
Mathematics/Logic teacher for high school and university students.   Verona, Italy

Languages

Italian   **English**
Native   TOEFL 2020

Education

PhD, *Università "La Sapienza"*   2007 – 2010
PhD Program in Mathematical Logic | Thesis title: "A two-dimensional semantics for   Rome, Italy
natural language formalization"

Master Degree, *Università Degli Studi di Genova*   2002 – 2007
Italian Master Degree (Laurea Magistrale)   Genova, Italy

Certificates

TOEFL   **PCAP - Certified Associate in**
Test date: 2020   **Python Programming**
Score: 98/120 (Advanced)   ID: 383260354
                                         Validation: 338962730
                                         Score: 92%

Projects

AGReATWine, *Contributor* ☒   2020 – present
Creation of a database of Italian wines included in DOCG appellations, evaluated by
the three main national wine guides

KDE, *Contributor, Member* ☒   2005 – present
Code, designs and translations for many desktop applications and web applications
from the KDE ecosystem.

ArchLinux, *Package mantainer* ☒   2005 – present
Arch Linux is a Linux distribution that tries to Keep It Simple

GSConnect, *Contributor* ☒
Complete implementation of KDE Connect especially for GNOME Shell.

InvoicePlane, *Contributor* ☒
A self-hosted open source application for managing your invoices, clients and
payments.

RAMP, *Contributor* ☒
Ramp is a python library for rapid prototyping of machine learning solutions. It's a
light-weight pandas-based machine learning framework pluggable with existing
python machine learning and statistics tools.

Wiki.js, *Patch contributor* ☒
Wiki.js is a modern and powerful wiki app built on Node.js

Publications

Collana UnidTest, *Libri per la preparazione dei test di ammissione universitari* ☒
